Safe

Looks safe

The URL 'https://easyweb.td.com/' has been assessed as 'Safe' with a threat score of 10/100. The primary risk drivers include the presence of a valid SSL certificate issued by a known issuer, a long-standing domain age of 10,325 days, and a stable registration history. Additionally, the domain is hosted on a mainstream hosting provider with a good reputation. Despite the presence of obfuscated JavaScript, there are no signs of credential harvesting or suspicious script patterns that would typically indicate a phishing attempt.

SUBJECT

Analyzed domain	td.com
Analyzed URL	https://easyweb.td.com/
Target brand	TD Bank
Brand confidence	99% (catalog)
Registrar	CSC Corporate Domains, Inc.
Domain age	10325 days
