Safe

Looks safe

The URL 'https://mercedes-benz.com/' has a strong brand match with a confidence of 0.95, indicating a high likelihood of being the legitimate Mercedes-Benz website. The domain is registered with a reputable registrar, Key-Systems GmbH, and has a long registration length of 40.02 years. The SSL certificate is issued by Let's Encrypt, a known and trusted certificate authority, and there are no SSL errors. The domain's IP address is hosted by Akamai Technologies, a mainstream hosting provider with a good reputation. The URL has no history of DNS changes and no fast flux detection. The content analysis shows no credential harvesting or suspicious scripts. The URL is not blacklisted in any of the checked databases, and there are no reports of abuse. The overall verdict is Safe with a score of 3/100.
