Safe

Looks safe

The URL analyzed is 'https://walmart.com/' and matches the canonical domain 'walmart.com' with a high confidence score of 0.95. The SSL certificate is valid and issued by a known issuer, and the domain has a long registration history. The page title and content are consistent with the Walmart brand, and the form action references the legitimate brand. The threat score is low, and the verdict is 'Safe'. The presence of a URL shortener is noted, but it does not significantly impact the overall safety assessment.
